PROFESSIONAL PROFILE

Results-driven Application Developer and Developer Analyst with a strong academic foundation in software engineering, multi-tier architectures, and systems design. Experienced in mobile and desktop development using Java, C#, and Kotlin, alongside relational database management with SQL schemas, triggers, and automated constraints. Certified in Google AI Essentials with proven skills in prompt engineering, Azure cloud storage pipelines, and developing resilient, data-driven software solutions.

TECHNICAL SKILLS & COMPETENCIES

- **Software & Mobile Development:** Java, C#, Kotlin, Android Studio, Windows Presentation Foundation (WPF/XAML), RoomDB, Object-Oriented Programming (OOP)
- **Cloud & Databases:** Microsoft Azure (Blob, Table, Queue Storage), SQL, PL/SQL, Database Schemas, Triggers, Relational Constraints
- **AI & Workflow Optimization:** Google AI Essentials Certified, Prompt Engineering, LLM Integration, Responsible AI Practices
- **Systems & Architecture:** RESTful APIs, Systems Analysis, Network Engineering, Role-Based Access Control (RBAC), Software Development Lifecycle (SDLC)

KEY TECHNICAL PROJECTS

Enterprise Cloud Solutions — ABC Retails | *Azure Blob, Table & Queue Storage, C#, Cloud Architecture*

- Architected a cloud-connected commerce infrastructure leveraging multi-tier Azure Blob, Table, and Queue storage.
- Engineered decoupled message processing pipelines to ensure resilient remote deployment and preserve transactional data integrity.

Contract Monthly Claims System (CMCS) | *C#, ASP.NET, SQL, Somee Cloud Deployment*

- Developed a web claim portal automating independent contractor claim workflows with secure Role-Based Access Control (RBAC).
- Structured transactional SQL backends containing strict relational validation rules and trigger functions to safeguard ledger integrity.

SpendWise — Personal Finance Mobile App | *Kotlin, Android Studio, RoomDB, Offline-First Architecture*

- Engineered a native Android personal finance manager utilizing local RoomDB relational tables for offline-first caching.
- Implemented automated budget auditing and category expense tracking with low-latency local database persistence.

PROFESSIONAL WORK EXPERIENCE

Freelance Qualitative Transcriber & Audio Data Analyst — EthnoLab

Dec 2019 – Nov 2023

- Transcribed and verified extensive multi-speaker audio recordings and qualitative focus group sessions with high verbatim accuracy.

- Categorized participant feedback and synthesized qualitative findings into structured data summaries to support corporate consumer sentiment audits.

EDUCATION

Bachelor of Computer Science & IT in Application Development — EMERIS (Formerly IIE MSA)Jan 2024 – Present (Expected 2026)

- Core Modules: Java/C# Programming, Network Engineering, Database Design, Logic Design, Professional IT Ethics

National Senior Certificate (Matric) — St Augustine Residential School 2018

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Google AI Essentials Specialization — Authorized by Google, offered via Coursera Jul 2026

- Credential Verification ID: 19D8C8391NA6 (<https://coursera.org/verify/specialization/19D8C8391NA6>)
- Coursework Completed: Introduction to AI, Maximize Productivity with AI Tools, Discover the Art of Prompting, Use AI Responsibly, Stay Ahead of the AI Curve
- Industry Simulations (Forage): Quantum (Data Analytics Simulation) | Fidelity (Customer Service Simulator)
